Lab - Research Laptop Specifications

Laptops often use proprietary parts. To find information about the replacement parts, you may have to research the website of the laptop manufacturer.

Before you begin this lab, you need to know some information about the laptop.

Your instructor will provide you with the following information:

Laptop Manufacturer:	Dell Inc.
Laptop Model Number:	G3 15 3579
Amount of RAM:	32GB
Size of the Hard Drive:	1 TB 5400 RPM HDD

Answer the following regarding your laptop model.

1. Use the Internet to locate the website for the laptop manufacturer. What is the URL for the website?

   https://www.dell.com/en-ph

2. Locate the service section of the website and look for links that focus on your laptop. It is common for a website to allow you to search by the model number.

   List the links you found specific to the laptop and include a brief description of the information in that link.

   https://www.dell.com/support/manuals/en-ph/g-series-15-3579-laptop/dell-g3-3579-setupandspecifications/display?guid=guid-36bec62b-1e14-4292-8946-18c06a3a3ce4&lang=en-us. The link shows the full setup and specifications of the laptop

3. Briefly describe any service notices you found on the website. A service notice example is a driver update, a hardware issue, or a recall notice for a laptop component.

   It has multiple services and support. For example, it has a link for drivers and downloads where you input your product ID and it looks for drivers for that specific product

4. Open forums may exist for your laptop. Use an Internet search engine to locate any open forums that focus on your laptop by typing in the name and model of the laptop. Briefly describe the websites (other than the manufacturer website) that you located.

   https://www.reddit.com/r/Dell/comments/b1ei22/issues_with_dell_g3/. Reddit is a massive online network of discussion forums. Users share news, and text. It also splits into subreddits for specific topics or hobbies
