Lab – Mobile Device Information

Introduction

In this activity, you will use the Internet, a technical journal, or a local store to gather information about an Android and an iOS device. You will document the specifications of each Android and iOS device onto this worksheet. Be prepared to discuss your decisions regarding the devices you select.

Step 2: Based on your research, which mobile device would you select? Be prepared to discuss your decisions regarding the mobile device you select.

For me, I would pick the Poco F8 Ultra since it has a more memory, better front and back camera though it loses when it comes to video recording. Poco has faster charging time 0-100% in 38mins, better audio quality, and it is much cheaper than iPhone 17 Pro Max. The reason people buy iPhone is because of the bandwagon effect, especially for the younger generation.

Answers may vary.
